SWAGING MACHINES

RAS 11.15
RAS 11.35

The compact and versatile RAS swaging machines are ideal for the workshop as well as the construction site. They are ready for all applications with the 9 sets of standard wheels.

On the RAS 11.35, the speed can be steplessly adjusted using a poti on the machine stand. Experienced operators choose higher speeds, less trained people prefer the slower speed range. With the foot switch the set speed can be recalled and the rotation of the rolls can be changed for Left-Right-Run.

9 pairs of wheels included

2 speed ranges for high productivity and sensitive forming

Swaging wheels

	RAS 11.15 (manual)	RAS 11.35 (motor driven)
SHEET THICKNESS MAX.	1.25 mm	1.25 mm
WHEEL CENTER DISTANCE	50 mm	50 mm
WORKING DEPTH MAX.	200 mm	400 mm
